## Overview

Dog Chicken Dog is a unique, 60 minute, ice breaker or conference program that has been presented to groups of up to 6000 people at one time. Using the language of music, the program provides a strong and immediate message of the value of individual contribution and the need to work in harmony. Paired and partnered in various combinations, participants will actually hear the impact they have on something much bigger than themselves.

Its ease of execution and facilitator independence makes it suitable for delivery live or via satellite, creating an ideal choice for large companies with multiple locations

## The Experience

Participants are first introduced to their rather "unique" instruments, and given instruction on how to play each one. Following instructions from "the band", featuring an energetic video format, participants play their instruments in increasingly complex combinations until a brilliant finale is achieved, with everyone contributing to a pulsing beat of captivating music.

Energetic and fun, Dog Chicken Dog will make musicians out of the most musically challenged and have even the quietest person dancing in their seat!

## Key Learning Points

- Realise the incredible value of individual contribution
- Understand the need to work in harmony
- Discover personal accountability for the whole
- Learn to see things from a different angle and look for opportunities in unusual places

## Results

- Greater individual contribution
- Stronger, more cohesive team
- Exponential results (whole is greater than sum of parts)
- Improved team morale

## Practical Details

- 60 minutes
- 4 teams made up of 10 to 1000 plus people
- Facilitator independent
- Participants may be seated in auditorium or classroom style
- Ideal for learning interventions, conferences and sales meetings
