

## Gold of the Desert Kings™ - Application Series™

You play Gold of the Desert Kings every day.....

### Turn Awareness into Action!

Harness the energy from your session of Gold of the Desert Kings!

Using the experience as a framework, the application series will reinforce the learnings, address individual/team productivity issues and create specific action plans that can impact your individual/team performance immediately.

### Objective

The program focuses on the principles from Gold of the Desert Kings e.g. aligning activity in order to achieve maximum results (effort vs productivity).

Participants learn to recognize the difference between activities that hinder their productivity and those that will yield the greatest impact on results.

They then create action plans that can be implemented immediately, which align their activities to value added results.

### Results

Participants will walk away from the program with:

- **An increased awareness of what they can achieve**
- **A comprehension of how to access knowledge, expertise and insight**
- **An understanding of how to optimize the use of available resources and tools**
- **The confidence to make decisions and take action**
- **A specific action plan that will lead to increased productivity**
